## Inovisense Delivers Confidence and Control

Wireless Monitoring That Works 24/7

-  Plug & play sensors for coolers, freezers, storage
-  Instant alerts via SMS, email, or app
-  Automated compliance reports
-  Battery-powered with long range
-  Cloud dashboard access — no IT team required
-  AI-powered alerts that help predict failures

*"Inovisense saved us over \$4,000 in product loss from one alert!"*  
– Grocery Store Owner, GA

## The Hidden Costs of Temperature Fluctuations

Grocery store managers lose thousands every year to:

-  Unexpected equipment failures
-  Unnoticed temperature spikes overnight
-  Manual logging errors or missed checks
-  Health inspection failures and regulatory fines

One sensor. One dashboard. One less thing to worry about.

## Worry-Free HACCP Compliance

Inovisense automatically logs and monitors all your cold storage and prep areas, ensuring:

-  Continuous temperature tracking
-  Automated recordkeeping
-  Instant alerts for non-compliance
-  Audit-ready digital reports

Always be ready for inspections — without lifting a pen.
